Terry A. Davis @losethos · 21 Feb 2011

I released LoseThos V7.01.

Terry A. Davis @losethos · 21 Feb 2011

I added a simple driving game.

Terry A. Davis @losethos · 16 Feb 2011

I removed compiler prefetching of source files and prefetching of wordstat files. They didn't help much.

Terry A. Davis @losethos · 14 Feb 2011

I got rid of "cout" and "coutln". They were redundant and kludgy.

Terry A. Davis @losethos · 13 Dec 2010

I released LoseThos V6.20. Not that much new, unless you want to program 8051's.

Terry A. Davis @losethos · 12 Dec 2010

I ported my 8051 assembler to LoseThos and included it on the distribution.

Terry A. Davis @losethos · 5 Dec 2010

Made a demo switching to ring3 in case you want to play around or write your own OS.

Terry A. Davis @losethos · 22 Nov 2010

Released V6.19. Primary new feature is graphics routines optimizations.

Released 6.18. Primary new feature is graphics features optimizations.

Terry A. Davis @losethos · 19 Nov 2010

Umm... for a day, the LoseThos version on my site had a bug. It's fixed, now. It would not have booted.

Terry A. Davis @losethos · 16 Nov 2010

I think I fixed a bug with LoseThos running under Virtual Box. The bug prevented writing to the hard drive.

Terry A. Davis @losethos · 15 Nov 2010

Go to the "LoseThos" group on FaceBook and say something to break the ice, everybody!

Terry A. Davis @losethos · 8 Nov 2010

Released 6.18. Has chess game with AI. Has compiler optimizations and a compiler bug fix.

Terry A. Davis @losethos · 11 Oct 2010

Released Version 6.17

Terry A. Davis @losethos · 11 Oct 2010

Made Acct files modular.

Terry A. Davis @losethos · 11 Oct 2010

Boot Loaders now use BIOS instead of direct I/O. Eliminates need to enter port numbers when installing. Let me know if it broke something.

Terry A. Davis @losethos · 8 Oct 2010

Added Good King Wincelas Game Demo. Christmas a little early.

Terry A. Davis @losethos · 29 Sep 2010

Fixed assembler bug relating to absolute addresses of C+ functions in asm expressions. Cleaned-up lots of code.

Terry A. Davis @losethos · 27 Sep 2010

Converted "cout" interrupt code from asm to C+.

Terry A. Davis @losethos · 17 Sep 2010

Made in-line (built into compiler) ModU64 function.

Terry A. Davis @losethos · 15 Sep 2010

Just added Magic Pairs demo to LoseThos. If SumFact(n) is sum of factors, find n1,n2 such SumFact(n1)-n1-1==n2&&SumFact(n2)-n2-1==n1
